Lightning Home Page

Quick Add Records

Create Communication

Quick tool to log a communication.
Creates a new Contact if needed.

Create Role without Contact

Used to create a Role and Account (or use existing) that did not originate from a person (eg. job board posting). Optionally includes quick Application creation.

Multi-create at First Contact

Creates Account, Contact, Job Search Communication and (optionally) Role

Create Application

Listing of active Roles with an ability to select one and create an Application for the Role
